## FUN EXTRAS

Spice up the fun with Karaoke or capture your guests' silly moments with a photo booth. Or give the room a glamorous look with up-lighting.

### PHOTO BOOTH

Capture the night's fun with an open photo booth with props. Consider adding an overlay to the photos with the date and name of the event to all your guests' photos. Photos are all digital and sent directly to your phone. You can share them right away.

### UPLIGHTING

Make any room go from good to spectacular by adding lighting. Uplighting is a popular lighting effect created by strategically placing lighting fixtures. Accent walls with color, highlight special areas, or cast a welcoming and festive glow throughout the venue with uplighting. Choose white or select a color to match your accent color.
